Subject: Microsoft Settlement

There is no need to prolong the litigation against the Microsoft Corporation. It was an ill-conceived action to begin with and sends the wrong message to highly innovative companies that advance technology and our economy and provide continued world leadership for the United States. The DOJ needs to be able to sort out the whining of Microsoft's competitors vs. real potential damage from one of the most successful technology innovators the country has seen. Let's get on with it.
